Subject: "permit-to-purchase" Repeal

Greetings: Angie Lake

Please pass this along to the Judiciary Committee. I'm in full support of **HB 5225 with it's proposed amendment**. I do believe it is long over due for a change. In Genesee County it takes two trips to the sheriffs office, once to fill out the form and pay your \$10.00 and another a day or two later to see if you cleared the **National Instant Criminal Background Check System???** (the wait time I do not understand) For me this means having to leave work early, and the lost wages. Also we the law-abiding, tax paying citizens have to (not by choice) pay someone to keep track of registered firearms that should not be registered in the first place, (see **the 2nt amendment**) I could go on and on, anyway thanks for your time and for all the good things you all are doing for us in Lansing.

Sincerely

Brad A. Clarke
